

Setup Guides

Welcome to MediaPortal!

These step-by-step Setup Guides will help you to get MediaPortal up and running with basic features.

If you do not wish or need to use a feature, you may skip that step or section.

If you have not installed MediaPortal yet, see [Getting Started](#) > [Preparing your System](#) and [Installing MediaPortal](#).

You can also use the **Help** button at the top right of any page in MediaPortal (or TV-Server) Configuration to view the related wiki page for information about the settings and options available on that configuration page.
