

# 1.2.0 to 1.3.0

## Plugin Related Changes

The following changes, which affect plugins, were done between MediaPortal Release 1.2.0 and 1.3.0.

**See also:** Changes between previous MediaPortal Versions:

- [1.1.0 to 1.2.0](#)
- [1.0.1 to 1.1.0](#)
- [1.3.0 to 1.4.0](#)
- [1.5.0 to 1.6.0](#)
- [1.6.0 to 1.7.0](#)
- [1.7.0 to 1.7.1](#)

Show: All Items Required Bugfixes Features Alpha Beta Release Candidates Final || Change || Type || Release || Required ||

<a href="#">New WindowMessage in MyVideos</a>	feature	1.3.0 alpha	
<a href="#">VideoDatabase interface changes</a>	feature	1.3.0 alpha	yes
<a href="#">Default Skin Files</a>	feature	1.3.0 beta	
<a href="#">WindowPluginBase Class</a>	feature	1.3.0 alpha	yes
<a href="#">IMDB class changes</a>	feature	1.3.0 alpha	yes

### Skin changes that are relevant for plugin developers also:

Plugin developers should also be aware of skin changes particularly when creating Default Skin files, which are required for all plugins. Please see [Skin Related Changes](#) - in particular [1.2.0 to 1.3.0](#) changes:

The following Skin related changes apply mainly to the skinning section of MediaPortal but have been 'tagged' by developers as relevant for plugin developers as well:

- [MyVideos new skin properties](#)
- [GUI settings changes](#)
- [Settings Common Extensions.xml](#)
- [Settings BluRay.xml](#)
- [MenuButton Control](#)
- [MyVideos new skin controls](#)
- [Settings skin files](#)
