

Wake On Lan feature

Purpose

- **Required:** No
- **Type of Change:** Feature

With the new [Wake On Lan \(WOL\) feature](#), skins can display a network/offline icon in Video, Music and Picture shares view to indicate when the share is offline.

Description of Change

Skins may add

```
defaultNetworkBigOffline.png
```

and

```
defaultNetworkOffline.png
```

to their skin media folder to indicate when the share is offline.

The default icons (

```
defaultNetworkBig.png
```

,

```
defaultNetwork.png
```

) will be shown if the new icons are not available in the skin.
