

# CoverFlow keepaspectratio and thumbZoom

## Purpose

- **Required:** No
- **Type of Change:** Feature

keepaspectratio or thumbZoom is currently not supported in **Coverflow**, but is in other facadeviews.

## Description of Change

This feature will add the following new parameters:

- keepaspectratio
- thumbZoom
- cardAlign
- cardVAlign

cardAlign and VAlign is introduced to give skimmers the option to align the texture of the cards in **Coverflow**. This was needed to release the full potential of keepaspectratio.
