

ListControl unfocused alpha

Purpose

- **Required:** No
- **Type of Change:** Feature

Implement feature to enable unfocused alpha on list control attributes label2, label3, pinIcon and Icon.

Description of Change

The [ListControl](#) has not allowed the unfocused alpha to be applied to label2, label3, pinIcon and Icon when the ListControl has lost focus. This change enables the unfocused alpha to be applied to these attributes. This capability enabled by specifying a new attribute named applyToAll on ListControl <unfocusedAlpha> as follows:

```
<unfocusedAlpha applyToAll="true">160</unfocusedAlpha>
```

where applyToAll may be "true" or "false". The default value is "false" to preserve legacy behavior.

See also [ListControl](#).
