- 4 [Changelog](#)

Download

Actual

Installer

- [NSIS v2.46](#) (if you need to build an NSIS installer) (Use NSIS 2.46 version and not the latest one)

Legacy (only for old MP Version)

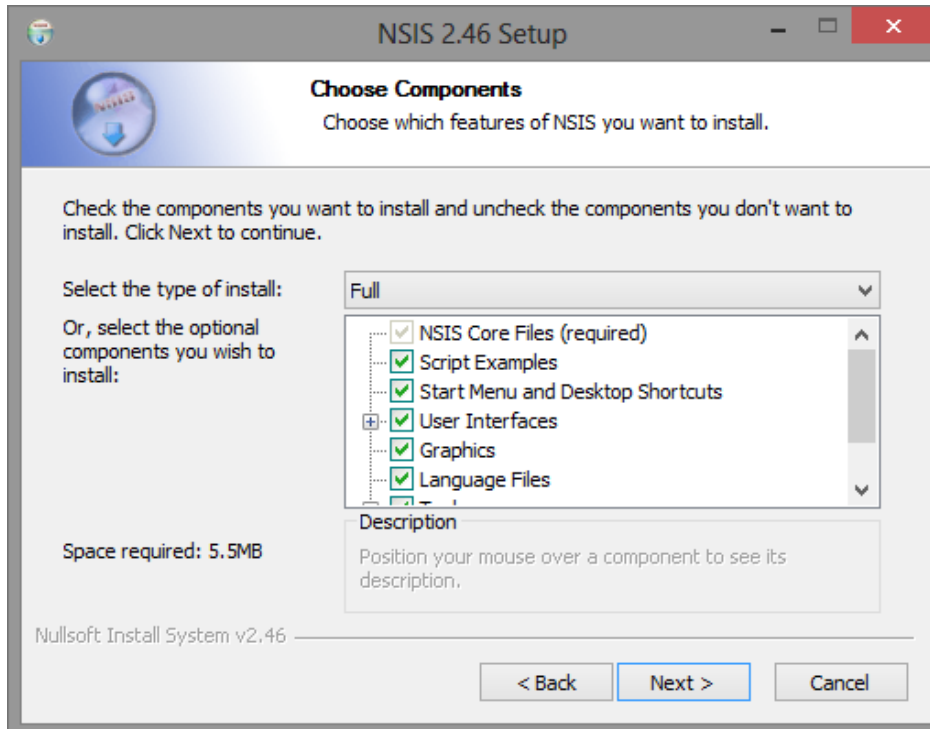

Empty

Installation

NSIS

Note: NSIS is only required if you wish to build an NSIS installer. You can clone, compile, build and run MP without NSIS.

- Start the installation and follow the instructions (the default settings are fine).

Configuration

Note: The rest of the installed software doesn't need any special configuration.

Changelog

Change	Date	Release
Visual Studio 2013	2015/02/17	1.11.0
Visual Studio 2015	2017/06/13	1.16.0
